

21 April 1982

NOTE FOR: Members of the Warning Working Group

The attached draft memorandum summarizes the comments made by the DCI over the past several months as he has reflected on the warning issues. I ask your advice on several points:

- Do these judgments accord with the issues of your principals?
- Is there any requirement for another NFIB discussion?  
Or,
- Would your principals be content to work out further details in the Warning Working Group?

Fred Hutchinson  
NIO/Warning
